1. Introduction

It is your automation enabler for a simplified digital transformation journey, business agility, high throughput, and higher ROI. Automationwhiz has a wide range of bots capable of automating critical business processes spanning across diverse industries and domains.

Automationwhiz emphasis on process automation and lets businesses optimize their processes without complexity and with maximum return on investment. It provides end to end support for process automation starting from BOT creation, orchestration to execution.

2. New Features

2.1 Captcha Validation for Login & Sign Up.

This feature validates that the user trying to sign in or sign up is human and not a robot by validating captcha task.

Sign Up

On Sign Up page, "I'm not a robot" option will display with a checkbox.
